IEP at a Glance—Grade 9

About Me....

I have many talents. I am a multisport athlete who loves playing video games. I am a very hard worker who is **full of compassion** but I also have learning differences. It doesn't mean I am not intelligent or lazy.

I have a **Specific Learning Disability** in basic reading (**Dyslexia**) and **math calculation**. Dyslexia also affects my reading, writing and spelling skills. I also have an attention and short term memory deficit which means you may have to explain things differently and more than once. I am a **Visual Learner**.

All the stuff we get to do at school all day can be a challenge for me but I want you to know that I am working twice as hard as others during school and at home. Some are my **Strengths** are **reading comprehension**, **math concepts** and big picture thinking. I thrive best in an inclusive classroom. Please know that I want to be successful and need your help to thrive socially and academically.Sara
